LEFT HOME AND FOUR CHILDREN

Young Man of Huntington Township Leaves with Married Woman. Four Children, One a Babe, Left in Destitute Circumstances.

Leaving her husband and four children, Mrs. Minnie Foust, wife of Joseph Foust, of Five Points, this county, has disappeared with John Stevens, son of Thomas Stevens of the same vicinity. Mrs. Foust is aged about 35 years while young Stevens is but 18. The affair has created a big sensation in Huntington township.

To add to the story it is related that Mrs. Foust and young Stevens procured some whiskey, gave it to Mr. Foust and persuaded him to drive them to Hanover where they took a train for parts unknown. The husband then returned home to find his four children, the oldest but seven years of age and the youngest only four weeks old, without a mother's care. He prevailed upon his mother to take three of the children, the babe and the two older ones, while he is taking care of the fourth.

It is related that the deserting wife sold their cow, a lot of chickens and other articles, pocketing the money and some other funds that they had saved, leaving the family in destitute circumstances. Mrs. Foust was reared by the late Henry Deardorff, of Huntington township, who was a veteran of the Civil War.

What has become of the woman and the Stevens boy seems to be a complete mystery among the residents of Five Points and vicinity who regard it as the biggest piece of news that has occurred there in years.

PUBLIC MEETING

Biglerville Temperance Workers Held Public Meeting in Church.

The Biglerville W. C. T. U. held its first public meeting this year Sunday evening March 9th, in the Reformed church when about three hundred people were present. The church was prettily decorated with potted plants and white crepe paper upon which were placed the letters "W. C. T. U."

The following were on the program, Edna Ulrich, Mark Knouse, Miss Mary Weidner, Miss Floto, and a number who took part in an exercise. A discussion on "What Constitutes Christian Citizenship—the Cooperation of Temperance Forces" was a feature of the meeting. The five temperance forces were given as "The Church," by Rev. T. C. Hesson; "The School," by Joseph Trostle; "The Law," by C. Arthur Griest; "The Press," by Fillmore Bream; and "The W. C. T. U." by E. Belle Weidner. The addresses were all carefully prepared and of much interest to the audience.

SICKLES SAVED AGAIN

Mortgage Foreclosure on Aged General's Home Postponed.

In the hope that something now unforeseen may develop, General Daniel E. Sickles, has been given one more chance to save his old homestead at Fifth avenue and Eighth street, New York. Noon Wednesday was set as the time when the place would be sold to the highest bidder, in connection with the foreclosure of the first mortgage held by the Bowery Savings Bank, but at a conference between attorneys, the referee was instructed to postpone the sale until April 16.

Sympathy for the aged soldier is said to have been the chief reason for the postponement. The General made a personal plea to the bank for more time, and the bank, through Cadwalader & Strong, its attorneys, had the sale postponed.

INAUGURATION LUMBER HERE

Will Ship Lumber for Inauguration Stands to Gettysburg for Use in Veterans' Camp. Over Two Hundred Thousand Feet Purchased.

Veterans of the Civil War will treat at Gettysburg the same boards as did Woodrow Wilson when taking the oath of office and during the review of the big parade. The lumber used in the two stands will be shipped from Washington to Gettysburg and utilized for tent floors and other purposes at the four-day encampment of veterans here in July.

A Washington contractor on Wednesday purchased 200,000 feet of lumber comprising the stand at the east front of the Capitol, where Mr. Wilson was inaugurated. He paid \$224.95 for the material and will take it down. In so doing the government will save about \$1500 for wreckage. The same contractor also bought the reviewing stand in front of the White House, comprising 60,000 feet of lumber. The entire quantity of material will be sent to Gettysburg for the encampment.

The razing of the stands will take some time and there is no indication as to the date on which the lumber may be expected here.

MANY MATTERS OF LOCAL INTEREST

State Legislature Takes up Questions of Interest in Gettysburg and the County. Various Bills of Local Importance.

Matters of much local interest continue to be presented in the State Senate and House of Representatives at Harrisburg.

The House on Wednesday passed the hunters' license bill by 82 to 69 on second reading after an hour's debate, during which it was amended so that a person arrested shall be taken to the nearest justice of the peace or magistrate and cutting out the provision that hunters must have written consent of owners of land to hunt. Numerous amendments were voted down.

A new congressional apportionment bill was introduced into the House by Mr. Strauss, Berks, a Democrat. It provides that the first seven districts shall be in Philadelphia, York and Adams counties form the twenty-first district.

Another batch of liquor bills made its appearance in the Legislature Wednesday, and for the first time the Senate is made the battle-ground of local option. Senator Senech is sponsor of a bill, identical in principle with one presented to the House by Matt, of Bedford, compelling judges to refuse to grant licenses where the number of remonstrants against it amount to 51 per cent. of the voters of a ward, borough or township.

FOUR INSTANCES

Four Ads in The Times Bring Remarkable Results in Short Period.

Yesterday a local appeared in these columns announcing that the People's Drug Store would give in change the new Buffalo-Indian nickels. The paper was scarcely on the streets before the demand commenced and before the store closed in the evening almost 900 coins had been distributed to people calling for them.

John D. VanDyke, who has been advertising Indian Runner duck eggs for sale in The Times, called at the office this morning to ask us to discontinue the ad. "It has brought me so many orders," he said, "that my entire output is sold 'way in advance'."

Yesterday a local was inserted in these columns advertising for a man to work at the produce business. It was inserted by the Rice Produce Company whose establishment is in the basement of The Times building. One answer was received within an hour of the paper's leaving the office and today numerous replies have been received.

The gold cross advertised as lost in these columns has been returned to the owner by means of the advertisement.

GET NEW PARCEL POST ORDERS

May Send Parcels at Special Delivery now. Collect on Delivery after July First. Instructions Received here.

Postmaster C. Wm. Beales was notified this morning, by the post-office department that beginning with July 1 the C. O. D. feature will be introduced in the parcel post service.

A fee of ten cents will be charged in addition to the parcel post charge and collections on packages to the extent of \$100 will be made. At the same time, packages can be insured to the extent of \$50.

C. O. D. shipments can be made to all money order postoffices. An ingenious feature has been adopted in expediting this addition to the parcel post. A tag is placed on each package. The consignee signs it and his signature acts as an application for a money order. A money order for the necessary amount is issued by the receiving postoffice and sent to the consignee of the package. The plan is very simple and yet very comprehensive.

The special delivery has been extended to the parcel post system and is now in effect. For an additional fee of ten cents a package is delivered by special messenger.

For this special fee of ten cents the sender can use a special delivery stamp or ten cents worth of ordinary stamps.

TO BARE VICE IN PHILADELPHIA

Commission in Quaker City Ready to Report.

'WANT "TIN PLATE" LAW

Would Affix Plate Bearing Name of Owner to Door of Every House Not Used as Residence Proper.

Philadelphia, March 13.—Within a few weeks the Philadelphia vice commission will be prepared to place its complete report in the hands of Mayor Blankenburg.

It has finished its investigations, discussed the recommendations to be made, and is having these put into writing. The findings of the commission are briefly these:

There are fewer unfortunate women a thousand of population in Philadelphia than are found in Chicago, New York or other large cities.

All policies of segregation are condemned, since the commission does not consider segregation practicable until it keeps people out of a district as well as in.

Director Porter's policy in relation to the vice situation will be commended as the most sincere and effective yet adopted in Philadelphia.

Philadelphia is reported to be an inviting field for the "racket" and the "procure" who were found working without adequate police surveillance. The commission finds one of the greatest dangers in the so-called "mixed districts," where disorderly resorts are permitted to flank respectable residences. It probably will roundly criticize all persons responsible for this condition which rarely exists elsewhere.

Inadequate police supervision was reported at various dance halls, disorderly saloons, amusement parks, moving picture shows and other places where girls and young men seek cheap recreation. In this connection the vice commission will recommend a considerable force of policemen, who will work with all the authority of the uniformed force, but whose chief aim will be to supervise, advise and restrain young girls.

The much-discussed question of courses in sex hygiene in the public schools and in other educational institutions will be gone over fully in the commission's report, but no effort will be made to offer definite recommendations. Sex hygiene, it is regarded, may be taught to older children with advantage, but has dangers of suggestion when promulgated among the very young.

Many thousands of girls were found at work for wages less than has been figured as adequate for decent living.

The commission found the same evidences of organized vice which prevail in other cities, and like other commissions was unable to trace up to the actual promoters.

Inadequate co-operation of certain magistrates in efforts to punish guilty persons will be one of the complaints.

If the report is as outspoken as many of the members of the commission desire it to be, one of its most sensational features will be a severe arraignment of a respectable element of the community which the commission's investigators have found profiting largely and secretly by the existence of vice and breeding a new and appalling phase of the social evil as a menace to numberless children. "We got some awful things on the trust companies," said a member of the commission.

Experienced investigators who lived and worked for almost a year in the underworld as the secret agents of the commission managed to secure many of the books of disorderly resorts. They found that through the seeming greed of real estate owners and a police policy which has scattered the resorts into residential sections, countless children are being subjected to daily familiar contact with depraved men and women. This is a phase of the situation never reported in any other city.

Among the recommendations to be embodied in the report the most sweeping will probably be that for the enactment of a "tin plate" law under which the owner of every house that is not used as a residence proper will be compelled to affix a brass plate bearing his name to the door.

FOR NATION-WIDE VICE PROBE

Illinois Invites Pennsylvania to Join Crusade Against "White Slavery."
Harrisburg, Pa., March 13.—A national-wide campaign to suppress the "white slave" traffic is suggested in a letter received by Governor Tener from Barr H. O'Hara, acting governor of Illinois.

Mr. O'Hara, who is chairman of a commission appointed by the Illinois legislature to investigate the "white slave" traffic suggests a similar commission to work along the same lines in every state. He asks the co-operation of Pennsylvania.

Much of the "despicable traffic" is described in the letter as interstate with "rings" in Chicago working with similar "white slavers" in other states. The plan outlined by Mr. O'Hara is that the proposed commissions work separately in each state, but assist one another with information that may lead to a solution of the evil.

Assigned Estate of Jacob E. Rummel, of Butler township, Adams County, Pa.

Notice is hereby given that on the 12th day of February 1913, Jacob E. Rummel and wife made a general assignment of all his property and estate to the undersigned in trust for the benefit of creditors. The plan outlined by Mr. O'Hara is that the proposed commissions work separately in each state, but assist one another with information that may lead to a solution of the evil.

BREAKS WITH TAMMANY

Friends Declare Governor May Force Issue.

Albany, N. Y., March 13.—There has been an open break between Governor Sulzer and Charles F. Murphy, leader of Tammany Hall, according to friends of the governor.

They declared that the governor is preparing to force the issue into the open. A statement given to the press by a close adviser of the governor says:

"Why is all the governor's legislation being held up? Bills which were advancing rapidly early in February are now weeks behind. Here is the answer: The Tammany leader has given specific instructions to every legislator he controls. He may use all the instruments in his power, but he won't be able to dictate to the governor. Mr. Sulzer is determined to get his program of constructive legislation through, even if it is necessary to call an extraordinary session of the legislature."

\$10,000,000 COAL LANDS GO TO MORGAN

Col. Guffey Makes Deal to End Bankruptcy.

Pittsburgh, Pa., March 13.—The J. P. Morgan interests will take over the \$10,000,000 coal properties of Colonel James M. Guffey in Taylor, Colar and Pres on counties, West Virginia. Negotiations have been under way for more than a year.

It is understood that Guffey is making a considerable sacrifice in the transfer, as he is getting approximately \$100 an acre.

This deal hits Guffey out of bankruptcy, into which he was plunged in 1909, after an unsuccessful fight against panic conditions.

The Morgan interests will complete the Buckhannon & Northern railroad from Riverview to Bealltown, where it will connect with the Baltimore & Ohio and the Western Maryland. This will give the coal field two routes to the Atlantic coast. The new line will probably be controlled by the New York Central.

LOSES SUIT FOR FORTUNE

French Court Refuses to Recognize Prince's \$240,000 Claim.

Paris, March 13.—Prince Henri de Bearn et Chalais failed to get the assistance of the French court of appeals in obtaining \$240,000 from a bank in Baltimore as part of the fortune left to him by his wife. She was Beatrice Winans, daughter of the late Ross Winans.

The prince represented that the brothers of his dead wife opposed his inheritance of the property. The presiding judge declined to consider the case, ruling that the prince must lodge his claims in the American courts.

The princess died in St. Peterburg in 1907, leaving two small children.

Declines Lipton's Challenge.

The challenge named a yacht seventy-five feet long and was conditional in that the cup should be defended by a yacht of the same size.

TENER DEFIES THE LEGISLATURE

Dual Officeholders Ignore Subpoenas of Committee.
NEXT MOVE EAGERLY AWAITED

The Governor Contends the House Has No Power to Investigate Executive Department.

Harrisburg, Pa., March 13.—The house, through the special committee which it authorized to investigate dual office holding, decided to accept Governor Tener's challenge that it is without constitutional power as a legislative body to probe executive department affairs, which position he took in a communication to the house.

The return challenge took the form of subpoenas served on sixty-two alleged dual office holders in nearly every department on Capitol Hill. Not one of them appeared before the committee in response to the subpoena. The next move is awaited with interest.

George Willis, sergeant-at-arms of the house, served the subpoenas personally. He marched boldly into the governor's office at the capitol, tapped on the shoulder of Walter H. Galt, the governor's secretary, serving him with the committee's notice.

Galt receives \$5000 a year as the governor's secretary and an additional \$500 as re-order for the board of pardons. Galt and others were verbally subpoenaed by Willis on Tuesday, but upon advice of the governor refused to obey the summons.

The committee has forced the controversy between the house and the governor into a legal issue.

The judiciary general committee of the house, to which Governor Tener's communication was referred, delegated to a sub-committee the task of suggesting what stand the house should take with respect to the governor's defiance. The special committee includes John R. K. Scott, Daniel J. Shern and Charles J. Roney, Philadelphia; E. Lowry Humes, Crawford county; and Frederick H. Geiser, of Easton.

The supreme court is quoted by Mr. Tener in support of his attitude. In his communication, addressed to the house, the governor says:

“Having in view the powers and duties of the three co-ordinate branches of the state government, a proper regard for the executive department and the prerogatives, powers and duties vested in that department by the people, under the constitution of the commonwealth, impels me respectfully to express my dissent from the proposition that it lies within the power of either branch of the general assembly to compel the governor, or the head of any department included by the constitution within the executive department, and their subordinates, subject to the supreme executive power vested in the governor by that constitution, by its subpoena, to appear and testify concerning, or produce books, papers and documents relating to, the administration of the executive department, before a legislative committee created by it, in any case where in the judgment of the governor of the commonwealth, it would be in compatible with the public interest to obey such summons.

“The same fundamental principle is our organic law which exempts the governor and his subordinates, while engaged in performing the duties pertaining to their respective offices, from the subpoena of the judicial department of the state government, like wise exempts the governor and his subordinates from the compulsion of a subpoena of an investigating committee created by a resolution adopted by but one branch of the general assembly.

“I have never declined, nor shall I decline, to communicate to the general assembly, all the information which, under the constitution, or the law, of this commonwealth, it is my duty to give, or which my judgment as the governor of the state may suggest to me, or a request from the legislature may indicate to me, will be useful in the discharge of the appropriate duties and functions committed to the law-making branch of the government.

“Meanwhile, and until such request is preferred to the governor, I have directed the heads of the several executive departments and their subordinates to decline to respond to the subpoenas.”

ADRIANOPLE'S FALL IS NEAR

Fortress Can Hold Out Only a Little Longer.

BULGARS CAPTURE KEY FORT

Also Take 420 Prisoners After a Stubborn Fight—Ottoman Commander Asks For Aid.

London, March 13.—It is expected in Sofia that the Turkish fortress of Adrianople will be entered before tonight by the Bulgarian and Serbian besiegers.

A private message states that the Bulgarian troops captured Herantara, one of the “key forts,” and took 420 prisoners. The Turks resisted stubbornly.

A despairing cry of “I can hold out only a week longer,” was sent in cipher by wireless from Shukri Pasha, the Turkish commander of Adrianople, to his superior officers in Constantinople, according to unofficial reports.

Shukri Pasha, who has held out for many months against the hundreds of siege guns of the Bulgarians and Serbians, is said to have informed the Porte in his message that Adrianople is practically at the end of its supplies of food and ammunition, while there is much sickness, especially scurvy and intestinal disorders, which are ravaging the ranks of the defenders.

The commander, who has offered such a long and gallant defense, urges either that peace negotiations be hastened or that an immediate attempt to relieve the city be undertaken from the Tchatalja lines.

Adrianople Causes Division of Ministry

Constantinople, March 13.—The Turkish ministry is divided in opinion and will have difficulty in reaching any solution of the problem raised by the commander of the besieged fortress of Adrianople. The ferment raised by the murder of the late Nazim Pasha continues to threaten internal trouble in Turkey. At a service in memory of Nazim the officiating Muslim priest pronounced a malediction on his assassins and on “those who have deceived the sultan of Turkey, head of the Mussulman faith.”
